New Haven Nurseries

New Haven, Missouri

RELIABLE NURSERY STOCK SINCE 1872

FEB 3 1900

Department of Agriculture

Owing to a delay in the printing of our Descriptive Catalog, we are mailing this condensed list of prices to you to enable you to send your order early. We will send you our Descriptive List as soon as it is received from the printer.

Send your order NOW, accompanied by 10 per cent of the amount of order, and the stock will be reserved for you. In this way, you are assured of getting just the varieties you want.

All our stock is first-class in every way. **ABSOLUTE SATISFACTION GUARANTEED** with a record of 58 years of square dealing to back the guaranty.

Apples

The first fruit, both in importance and general culture, is the Apple. Its period, unlike that of all other fruits, extends nearly or quite through the year. By planting judicious selections of Summer, Fall and Winter sorts, a constant succession of this most desirable fruit will be obtained. Apple planting can never be overdone.

Our Apples are grown on Missouri River upland, on well branched, whole roots, smooth, clean and well grown in every respect. No better trees can be found anywhere.

	Each	10	100	1000
2 year, 5 to 6 feet, well branched, select.....	\$.45	\$4.00	\$30.00	\$250.00

Tulip Tree. 5 to 6 feet.....	.80	7.00

SCALECIDE

THE COMPLETE DORMANT SPRAY

SCALECIDE is truly the complete dormant spray. Applied in the fall it controls scale of all kinds, bud-moth, pear psylla, peach leaf curl, and fungous cankers. The delayed dormant spray with Scalecide controls scale, aphids, pear thrips, leaf miner, case bearers, leaf roller, European red mites, bud-moth and fungous cankers. And in addition year after year use of Scalecide invigorates the trees. Scalecide is guaranteed to make a better orchard than lime-sulphur.

Scalecide is pleasant to use; it does not injure even the eyes. It is non-poisonous. It saves half the labor of spraying—a tankful of dilute Scalecide goes as far as two tankfuls of dilute lime-sulphur. Scalecide saves the cost of nicotine; saves the cost of spreader; saves more than three-fourths the freight and haulage. A fifteen-gallon drum of Scalecide covers the same trees as a fifty-gallon barrel of lime sulphur.

Proportions

For small quantities of spray solution, these figures will help you to get the proper mixture. Be accurate.

MATERIAL

SCALECIDE—Dilution recommended, 1 gallon to 15 gallons of water. Three cupfuls (1½ pints), equivalent for three gallons of water.

SCALECIDE

50-gal. bbls.....	\$35.00	5-gal. can.....	\$ 6.25
30-gal. bbls.....	25.00	1-gal. can.....	1.75
15 gals. \$11.50, drum returnable \$2.00.....	13.50	1 qt. can.....	.75
10-gal. can.....	10.60		

Pints, quarts and gallons shipped by express or parcel post only.
